

SQUADS

While most Swim Schools are structured with goals focused around distance, SwimMagic has decided to progress children through squad levels based on their ability to hold technique.

The SwimMagic Squad teachers are trained to provide individual corrective feedback to swimmers in motion.

Our team are passionate and professional, and take huge pride in their ability to get the best results out of the swimmers under their guidance. To motivate your child through the SwimMagic Squad Programme be sure to talk to your SwimMagic Coordinator about participation in the SwimMagic League Carnivals.
